

No More Stamps, No More Writing Checks, No More Paper Invoices

With so much activity in our daily lives, it's easy to forget to make an invoice or budget payment. With our new direct payment plan, make a payment at any time! Now you can avoid those late charges while on vacation, or because you forgot to pick up stamps at the post office. Save time and money when you have payments deducted automatically from your checking or savings account.

Sign up is easy – visit our website www.resslerpropane.com and click online payments to complete the required authorization form. Once we receive your account information, we can charge your account beginning with the next invoice or budget billing. Payments will be processed within five days from the date of invoice and will be acknowledged on your next statement. If you don't have access to a computer, please call our office to have an authorization form mailed to your home or business.

For customers who prefer to initiate payment transactions, we can accommodate single electronic payments as well. Simply click check payment to access the payment screen, enter the information requested and process. Click receipt to print a copy of the transaction.

Invoices can now be e-mailed to customers who want to be "paperless". Complete the information request form on our website and we will e-mail all invoices and statements to your computer. Account statements for the previous 12 months are also available online.

Our website offers flexibility, convenience and security when processing account transactions. Visit www.resslerpropane.com for changes and updates or call our office for additional information.

ENJOY EVEN PAYMENTS THROUGHOUT THE YEAR WITH NO SURPRISES

It won't be long before cold weather returns, so now is the time to plan ahead. Once again, we're offering customers a budget payment option to evenly distribute the higher gas expenses that can occur over the winter months with increased usage. Budget customers tell us they like the plan because fuel expenses are pre-determined, and they can select from billing dates that suit their financial planning needs. No more surprises of large invoices - know your cost each month.

How does it work?

1. We divide your annual propane usage into 12 payments.
2. Each month you receive an invoice for the budget payment, via mail or e-mail.
3. Simply send us your payment before the billing date of the next month, it's that easy. You can also take advantage of automatic payment withdrawal from a checking or savings account or a credit card for added convenience.

If you enroll for budget billing by July 31, 2007, you have the option to lock-in your propane price for the next 12 months. As a special bonus, those customers who sign up for budget billing will also have their name entered in the drawing for a Phoenix Stainless Steel Gas Grill, retailing for \$1,172.00! Stop by our showroom to see the grill on display.

To enroll for budget billing, call our office or sign up online at www.resslerpropane.com.

Recipe for Happy Grilling

Summer is here and so is the urge to grill! According to information provided by the Propane Education & Research Council, four out of five families own a grill and most cook on the grill at least once a week during the summer months.

Ressler Propane wants you have a safe and successful experience with your grill, so please keep in mind the following safety tips:

- When lighting a grill, keep the top open
- Do not use matches or lighters to check for leaks
- Never pour accelerants on the grill, such as gasoline or lighter fluid
- When finished grilling, turn off the burner controls and close the cylinder valve
- When the grill is not in use, cover disconnected hose-end fittings with protective caps or plastic to keep clean

Need to fill your tank, purchase a spare tank, or have a tank inspected? Please stop by our location at 27 West Main Street in Mountville. Our business hours are Monday through Friday, 7:30am to 5:00pm and Saturday 8:00am to noon.

If you would like to review additional information on propane use and safety, visit www.resslerpropane.com or www.usepropane.com.
